

ASL T220

220V INDUSTRIAL VACUUM CLEANER

The **ASL Industrial T220 Vacuum Cleaner** is a powerful, high-performance vacuum with a **220V blower motor**. A unique feature of this vacuum is the self-cleaning filter, where a mechanism will constantly clear the filter to ensure maximum performance.

This vacuum has the ability to connect to the **ASL RT3 Remote & Ride on Floor Grinding Machine**, so that they can both be operated by one worker to save time and cut down on labor costs.

The control panel has simple operating settings for quick use.

ASL T110S

110V INDUSTRIAL VACUUM CLEANER

The **ASL Industrial T110S Vacuum Cleaner** is a powerful 110V vacuum with your choice of **3 or 2 motors** inside. A unique feature of this vacuum is the **self-cleaning filter**, where a mechanism will constantly clear the filter to ensure maximum performance. It has a detachable dust drum that does not require a plastic bag.

There are **no circuit boards** with this model.

As a 110V model, the **T110S** is able to plug directly into standard wall sockets, which drastically simplifies finding an adequate power source.
